### Vertiv Avocent LongView 830 Companion KVM switch Black:

The Avocent LongView Companion extender allows a second user station to be located near the computer. When combined with the LongView extender, you can place connected computers up to 500 feet away with any CAT 5 cable and still have control of your keyboard, monitor, mouse, speakers, microphone and serial devices. The LongView extension technology improves physical and data security and increases workspace by separating your staff from their computers.

- Supports a second user connection locally at the target device.
  - Secure location placement minimises tampering, system damage and unauthorised software installation on computers.
